

WOOD ART DESIGN

Custom millwork and fine metalwork come full circle.

Recognized as the one stop solution for luxury-class architects, builders, and homeowners worldwide, Wood Art Design is considered "the source" for true custom architectural millwork combined with expert metalworking.

For thirty years Wood Art Design has set the standard for custom solid wood doors and windows, metal-clad wood doors and windows, as well as durable Schüco aluminum doors and windows.

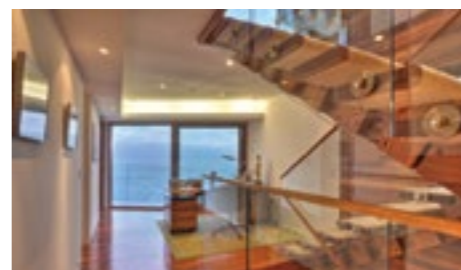

Today, our line includes expertly crafted custom kitchens, teak and stainless lounge furniture, as well "total home" interiors and exteriors.

Exotic woods include teak, rosewood, koa, as well as European white oak, maple, mahogany, and many more. All woods may be combined with bronze, copper, marine grade stainless steel and aluminum to create timeless home interior and exterior works of art.

Partner with Wood Art Design and your design possibilities are limitless.

Custom Designed Doors To Open Your World

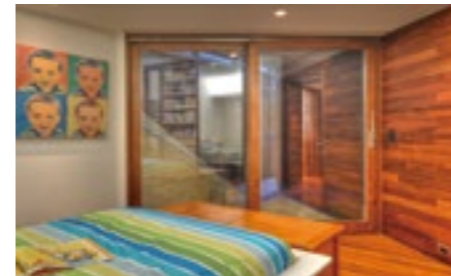

- **Solid wood doors in teak, rosewood, koa, and more**
- **Metal clad solid wood doors, custom clad in aluminum, bronze, copper, or marine grade stainless steel**
- **Aluminum doors using German Schüco aluminum**
- **Aluminum teak wood clad doors where form meets function**

Wood Art Design Doors doors are custom hand crafted using only the finest materials.

Whatever your project requirements we can fabricate any type door for use anywhere in the world.

Choose from many door types: Out swing and in swing doors - fully gasketed leak proof, pivot doors with over-sized our specialty, folding doors, lift and slide doors, pocket doors, arched doors as well as arched transom doors.

For added weather protection all Wood Art Design exterior doors feature German imported quality G-U 12mm tall "leak proof" lifetime gaskets.

Let The Light Shine Through

Windows by Wood Art Design are virtually unlimited in design, size and usage.

Our windows are fabricated in solid wood or wood with bronze, copper, stainless custom v-cut bend cladding, as well as quality Schüco aluminum.

We work with any type of glass including insulated, low tinted, laminated, as well as triple glazed.

Casement style - push out, awning, out swing truth-type crank, European style tilt and turn, motorized vent windows, hopper, single and double hung, plus full hardware customization - and we will provide any hardware.

Solid Wood

01

Our window systems are expertly crafted from exotic fine woods including teak, rosewood, koa, oak and more, and can be designed for any style home.

Metal-Clad Wood

02

Solid wood interior windows custom clad in aluminum, bronze, copper, or even marine grade stainless steel make a beautiful statement with durable exteriors.

Aluminum

03

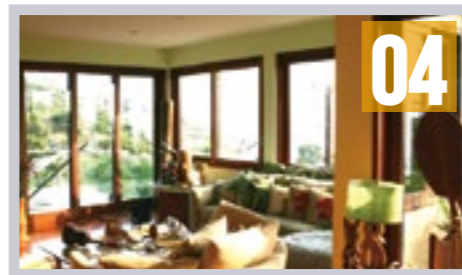

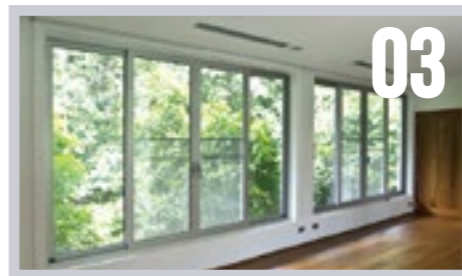

Our aluminum windows are ideal for demanding oceanfront installations. We are a partner fabricator and supplier of state of the art German Schüco aluminum.

Aluminum Wood

Clad

04

Wood Art Design aluminum extruded windows can feature exotic fine wood interiors - they're exceptionally strong and impeccably stylish.

Your Kitchen As Art

Custom designed solid wood kitchens in teak, teak veneer, rosewood, teak, koa, European white oak and mahogany

Match-perfect wood stains with durable finishes plus soft close Blum German hinges and other quality hardware

Custom interiors with stainless steel v-cut bent metal drawer boxes, stainless steel custom drawers and slide out bottoms

With over thirty years of experience, we provide top level German quality craftsmanship in virtually any architectural design style.

Using fine teak and teak veneers as well as rosewood, koa, oak and maple Wood Art Design maintains consistent top level standards across all custom kitchen price ranges.

Our solid wood kitchen cabinet doors and drawers are made using old world, fine woodworking techniques including strong mortise and tenon joints.

For example, we will combine two different woods making unique grain panels, stained to your exacting color specifications. We then add seamless stainless steel tops with integrated seamless sinks. Your custom kitchen possibilities are virtually endless.

Custom crafted kitchens worldwide
Solid teak, teak veneer, koa and more
Custom interiors to match any decor
Quality German-engineered hardware
Stainless steel, copper, & bronze accents

Luxury Residential “Total Home” Interiors & Exteriors

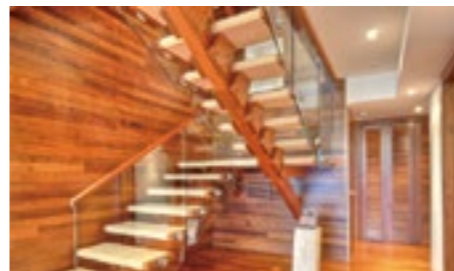

Although most projects are not considered too small for us, Wood Art Design typically works with consulting architects, builders and knowledgeable home owners of exceptional custom residences, some of which are more than 32,000 square feet.

These prestigious homes are located in destinations as varied as the chateau regions of France to ocean front Laguna Beach, California and all the way to Phnom Penh, Cambodia.

With our thirty years of solid handmade custom wood and metal expertise, including custom bronze casting, Wood Art Design compliments the exacting demands of historical architectural treasures around the world. Visit our website and take a tour of these exceptional properties.

- **Complete design flexibility, advanced hardware and glazing systems, plus the selection of any available wood species including Burmese teak, Burmese rosewood and koa**
- **Doors and windows, custom kitchens, and T&G floors tailored to any architectural style or application, including European influence or exacting historic renovations**

Teak & Stainless Deck Lounge Chair Series

Oceanfront Beauty and Durability

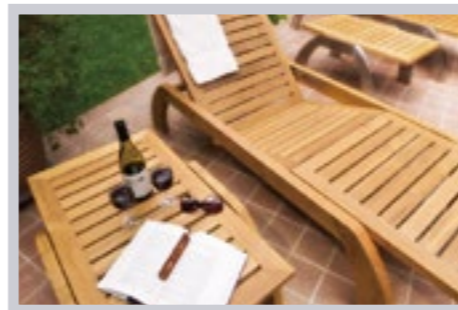

Wood Art Design's ergonomically designed all weather teak and stainless deck lounge recliner chairs beautifully combine form and function. Our recliners are available in two luxurious design styles:

- **Laguna Straight Back All Teak or Teak and Stainless Steel**
- **Pacific "Floating Frame" Curved**

The fully reclining Laguna straight back lounge chair comes in your choice of all solid teak or solid teak with teak top capped stainless steel legs.

Rosewood is available by special order.

Enhance with a matching teak or teak and stainless side table/bench combo.

Laguna Series All Solid Teak Recliner

The Laguna all teak straight back recliner features a custom crafted stainless gear system with four easy adjustments. Go from sitting upright for reading to fully reclined in a snap.

Matching teak side table/bench is available. Natural teak finish: eco-friendly German Rhenocol with five years maintenance free durability under direct sunlight.

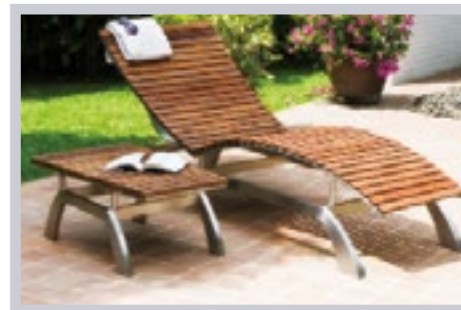

Laguna Solid Teak & Stainless Steel Recliner

When durability counts - for pool side uses choose our #304 stainless steel. For oceanfront, salt water environments our marine grade 316L stainless offers a lifetime of durability.

Environmentally safe natural finish or custom colors will fit any pool side decor.

A beautiful teak and stainless steel side table/bench is also available.

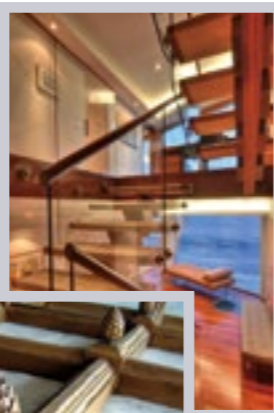

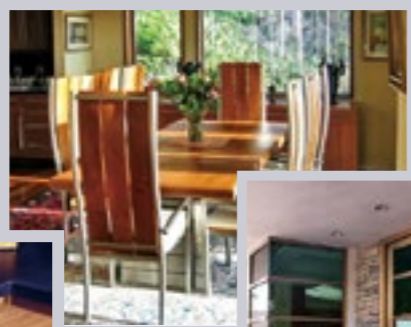

Pacific "Floating Frame" Curved Recliner

The elegant style of our Pacific recliner truly sets it apart. Choose from solid teak or rosewood, both with stainless support legs and frame.

Add a matching teak & stainless or rosewood & stainless side table/bench.

For added comfort our teak wood is epoxy resin-laminated in two layers for a hammock-like flex and durability.

Full Customization

Limitless possibilities in design and size

Wood Art Design has decades of customization expertise recognized for lasting beauty and quality the world over. One-of-a-kind customization solutions for windows and doors offer many types of fine woods with beautiful, lasting exterior finishes including #304 or 316L marine grade stainless steel, as well as copper or bronze v-cut bent custom made cladding. We can design, test, and fabricate special door and window hardware, such as stainless bracketing systems to support heavy staircase glass. Our hands-on metal and wood customization projects utilize only the very best in high precision machine facilities and computerized custom v-cut bending factories.

We invite the challenge of executing your next one-of-a-kind custom project.

WOOD ART DESIGN

In 1980 Wood Art Design began creating exceptional wood work featuring old-world handmade craftsmanship combined with state of the art adhesives, epoxy resin laminations, and quality urethane resins. Today the company, located in Chiang Mai, Thailand, employs over fifty craftsmen in a 50,000 square foot (4,645 sq m) facility. In fact, our team has over 300 combined years of quality craftsmanship, from fine millwork and expert finishing to customizing one of a kind bronze, copper and stainless metalwork. Our state-of-the-art wood and metal departments are equipped with the latest equipment to meet the demanding engineering specifications for today's architects and builders around the world.

So call or email Wood Art Design today and move your dream home project from the planning stage to realizing a timeless work of art. We look forward to working with you.
